FEBRUARY 2018

### **Train like a pro & perform like a star**

**TASA empowers students to achieve 100% college placement and on-time high school graduation through mentoring, tutoring, arts & sports.**

Tinaj Arts & Sports Academy (TASA) is partnering with public and private schools in Los Angeles to create after school enrichment programs. We currently offer after school programs for elementary, middle school and high school students.

TASA's mission is to provide underserved youth with quality after school programs, which include academic support, STEM (Science, Technology, Engineering, Math) arts programming, enrichment activities and sports in a safe and caring environment.

Today's  
children are  
tomorrow's  
leaders

## Why Do Afterschool Programs Matter?

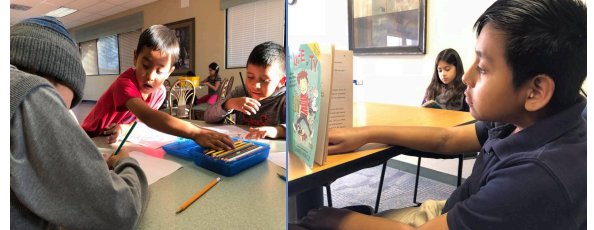

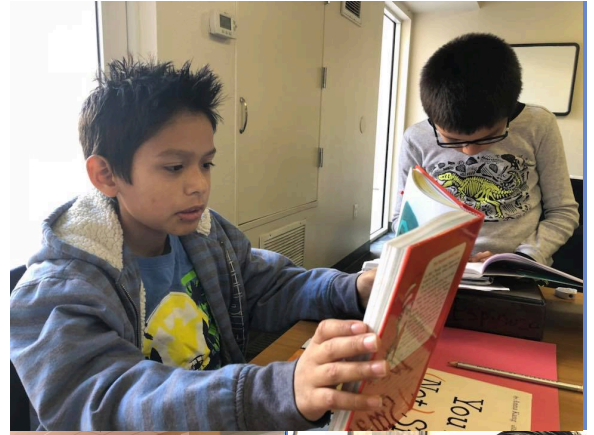

TASA afterschool programs go beyond the school - because at the things we do — providing meals, mentors, improving behavior, increasing self confidence, teaching leadership, team workforce skills, and making sure kids have access to daily physical activity.

TASA afterschool programs understand that schools alone can't prepare our children for success so we are willing to work closely with schools and teachers to provide activities and tutoring services for all students.

TASA's afterschool programs are filled with sports, creative play, dance, theater, tutors and other extracurricular activities.

Our afterschool programs are designed to help our students succeed in school and develop professional skills that will help them in the workforce.

Our computer tutoring doesn't only give them an introduction to basic computer skills but also teaches them front row, which is work-study and math.

## Volunteers

It is through our amazing and dedicated volunteers that we at TASA can achieve our unique programming such as tutoring, martial arts, soccer, dance, acting, improv, art, etc.

### **TASA EMERALD TERRACE LEARNING CENTER**

On March 22, 2018 TASA students will take the yellow belt test at Emerald Terrace Learning Center from 4pm to 6pm. Family & friends are welcome!

### **TASA PICO GRAMERCY LEARNING CENTER**

It is important for children to stay physically fit throughout the year. Physical fitness decreases obesity and the risk of juvenile diabetes. Research also shows that physical activity improves: cardiovascular health, joint development, bone growth, strength and flexibility.

# Together we succeed!

Thank you for your generous support. Together we can give the power back to the teachers and educators who are integral in teaching your and our students every day. Every dollar you donate goes to provide services and programs that benefit ALL TASA students. These include: Classroom supplies, field trips, After-school homework help, Library supplies, Art supplies & Sports equipment.

Soccer is a sport played between two teams of eleven players with a round ball and is known as football in most countries outside of the United States. It is played by 250 million players in over 200 countries, making it the world's most popular sport.
